

Powerful Features.

Do more from a distance.

Worldwide:

Accurate GPS tracking anywhere in the world with no additional cost or roaming data charges. Customized tracking frequency optimizes battery consumption.

Alerts:

Receive real-time smart alerts by text, email and smartphone app-alerts. Set on-location changes, speed limits, sudden movement or impact, and SOS alerts.

Fencing:

Define perimeters on a Trackimo™ map in any area. Receive smart alerts when your device crosses the set perimeter borders.

Devices:

Access the Trackimo™ application from your smartphone, tablet or desktop - from anywhere, anytime. iPhone and Android compatible.

Accessories:

A weatherproof silicon case, micro-USB charging cable, sturdy belt-pouch and strong magnetic stripe for attachment.

Emergency Voice Channel:

The device can be set to open a voice channel automatically when the SOS button is pressed, so the remote user can hear everything that's going on near the device.

Dynamic History:

All the tracking history is stored and the user can drill down to any time period and view the history in multiple resolutions.

Product

Trackimo™ products are available in several designs, to match various needs and uses. The first product to market is Trackimo Universal:

TRK 100

Small, light and fits everywhere – in a child's bag or pocket, a baby's stroller, in your car, clips onto a belt, attaches by Velcro or magnet to many surfaces.

Technology

Trackimo's unique patent-pending technology includes a minimized, efficient electronic board with GPS, GSM, accelerometer, and other components that provide smart data while optimizing energy usage, and cloud-servers which utilize sophisticated algorithms, data communications and cellular network signaling to manage the devices and dispatch information to systems and apps using minimal data bandwidth.

Beyond Security and Functionality

Trackimo™ goes beyond tracking – with multiple apps for social location sharing, group activities, interactive travel visualization and more, Trackimo becomes a platform for fun, leisure and lifestyle.

trackimo

always there

Discover where you'll take it.

Add Trackimo to the things that are important in your life, so you can worry less. Become notified instead of having to check-up. At Trackimo™ our mission is to give you the smallest, most affordable and feature-rich tracking devices. Where will you go with it?

Coming Early 2015!

Use Trackimo for your:

- Children
- Vehicle
- Pet
- Luggage
- Fleet
- Elderly Loved One
- Bike
- Boat
- Trailer and more!

Trackimo™ Watch

Fun, personal and easy to operate. Trackimo™ Watch monitors the wearers location in seconds, and has a SOS button for when the wearer is in distress. Set perimeters to receive smart alerts when wearer leaves or enters them.

Trackimo™ Travel

Smoother, slimmer and more comfortable, Trackimo™ Mini Tracker conveniently fits into valuable mailing packages. Track your package from anywhere in the world. Can be used for wallets and other compact spaces.

Small device, great performance

The product is great. Small size, battery life is reasonable and GPS positioning is very accurate. We used the product overseas, and it works as promised. Highly recommended, best product you can get at a great price.

By Sammy (NY)

Trackimo™ Pet

Worry less. Adventure more. Attach Trackimo™ Pet to your pets collar to prevent them from getting lost, stolen or running away. Track from your mobile device, tablet or desktop. The SOS button lets anyone who finds your pet alert you of their location.

Easy and simple set-up!

Activating was straight forward, it just takes you time. Tracking is quick and gets better after the first day.
